Thank you for participating the Citython2020-Amsterdam! During this event you will be challenged to come up with solutions for diverse mobility challenges. Since all initiating partners are community organizations and innovation starts with sharing knowledge and collaborations, your solutions and ideas will be openly shared on all websites of our partners City of Amsterdam, Carnet, AMS Intitute and Amsterdam Smart City. By doing this we can show the world how we can create innovative, sustainable and tangible solutions city challenges.

Here is the most important information you need to know about sharing innovative solutions during and after the Amsterdam Citython2020-Amsterdam.

During the Citython2020-Amsterdam:

- During the event you will work in cross-disciplinary teams to jointly develop ideas and solutions to tackle the mobility challenges. Teams should not copy or use the ideas of other teams. The main reason is because at the end of the event the best solutions will be awarded with prices. Also we want to encourage diversity of solutions.
- If you want to share a more mature idea during the event that you are planning to protect with patents or any other forms of intellectual property, you should never share the key technology details, confidential information or any other core business information. You are responsible for the information you share. However this should not prevent you from inspiring the community by bringing innovative and disruptive ideas and solutions.
- If you want to share your own experiences during the event on social media please use #Citython

After the Citython2020-Amsterdam:

- After the event, all of the collected and proposed solutions will be shared on the websites of all partners involved. Each solution will include a brief context and a description and the possibility to add the contact details of a team’s members. You can decide in advance whether or not to share your contact information (e-mail) openly. Having team contacts might foster international partnerships to implement your ideas after the Citython
- The Citython publishes the proposed solutions developed during the event solely for the purposes of facilitating public access to the information concerning ideas and shall not be liable regarding the validity or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use any of the proposed solutions shared on the website of her partners neither does it represent that it has made any effort to identify any such rights.
- The Citython cannot guarantee that the text of the proposed solution is an exact reproduction of the proposed solution.
- If you want to share your own experiences after the event on social media please use #Citython
AMMENDMENTS

We will update this Privacy Policy occasionally and in response to requirements derived from legal, regulatory or operational changes. We will notify you of these changes (including their commencement), in accordance with the law.

BACKGROUND

About EIT Urban Mobility

EIT Urban Mobility aims to accelerate solutions and the transition towards a user-centric, integrated and truly multimodal transport system. As the leading European innovation community for urban mobility, EIT Urban Mobility works to avoid fragmentation by facilitating collaboration between cities, industry, academia, research and innovation to solve the most pressing mobility challenges of cities. Using cities as living labs, its industry, research and university partners will demonstrate how new technologies can work to solve real problems in real cities by transporting people, goods and waste in smarter ways.
